## Explanations:

**Total # Referred** - the number of households referred during the reporting period. The combined total of Pending, Accepted & Denied may exceed the Total # Referred, as referrals may carry over from one month to the next.

**# Referred - Pending / In-Process** - the number of households that, at the end of the reporting period, remain in a Pending or Pending In-Process status. This number may include referrals that have carried over from the previous month.

**Pending** - the agency receiving the referral had not changed the status to indicate they were attempting to reach the participant.

**Pending In-Process** - the agency receiving the referral has begun attempts to reach the participant.

**# Accepted** - the number of households referred *at some point, regardless of what month*, who are enrolled in program during that reporting period. This number may include referrals that have carried over from the previous month.

**Avg days pending before enrollment** - how many days between referral date, and enrollment date

**# Denied** - the number of households referred *at some point, regardless of what month*, who are denied for program during that reporting period. This number may include referrals that have carried over from the previous month.

**Avg days pending before denial** - how many days between referral date, and denied date
